ABOUT US

SOC Energy Services Ltd is a Nigerian-owned, execution-driven industrial services company founded with a clear mission: to support high-demand sectors with the tools, systems, and coordination required to operate safely, efficiently, and in full compliance.

Headquartered in Lagos, Nigeria, SOC was established by a team of experienced business professionals with a bold vision, to elevate and modernize traditional approaches to safety management, technical procurement, and industrial project delivery across key sectors including oil & gas, marine, construction, manufacturing, and public infrastructure.

We specialize in delivering integrated safety solutions, critical procurement and logistics, operational risk management, and engineering coordination under COREN - certified technical governance.

Our delivery model simplifies execution for high-risk, high-performance industries, removing the burden of managing multiple vendors while ensuring full regulatory compliance and performance continuity.

HOW WE WORK

Our Model : OneSource Delivery™

At SOC, we simplify execution with our OneSource Delivery Model a delivery - first approach that gives clients:

- ✓ One point of contact
- ✓ Certified in-house support teams
- ✓ Access to vetted technical partners
- ✓ Full accountability from sourcing to execution

ONESOURCE DELIVERY MODEL™

LEADERSHIP

At SOC Energy Services Ltd, our leadership is driven by integrity, professionalism, and operational excellence. The Board of Directors and management team bring over a decade of industry expertise, guiding the company's OneSource Delivery Model with discipline and accountability. By leading through example and living our values daily,

SOC fosters a culture of responsibility, performance, and client focused delivery. This leadership ethos ensures consistency across safety, procurement, and technical scopes making us a trusted partner across high-risk sector"

QHSE Lead (Project Based)

Mission Statement:

To deliver certified safety, integrated procurement, operational risk management, and coordinated engineering support through a single trusted model, helping our clients protect people, meet compliance standards, and achieve high-performance operations across West Africa.

Vision Statement:

To become Nigeria's leading execution partner for industrial safety, procurement, risk management, and engineering coordination, trusted by organizations to simplify delivery, strengthen compliance, and enhance operational outcomes.

OUR CORE VALUES

Our beliefs, principals and philosophy are built around these core values:

Accountability

We own the full delivery outcome, whether executing in-house or coordinating certified partners, ensuring every service reflects SOC's standard of excellence.

Compliance First

We prioritize regulatory integrity, industry standards, and technical discipline in every engagement. Our work is traceable, auditable, and built for inspection.

Execution Excellence

We don't just plan, we perform. SOC delivers every service with precision, speed, and quality assurance, holding ourselves to measurable results.

Clarity

We believe clarity drives confidence. From scope definitions to timelines, we communicate clearly, price transparently, and document every step.

Partnership

We build lasting relationships across clients, engineers, OEMs, and public institutions, based on integrity, collaboration, and aligned success.

Adaptability

Every client is different. We flex our delivery model to fit your needs, whether you require a vendor, a supervisor, or a fully coordinated service partner.

OUR SOLUTIONS

Safety Solutions & System Deployment

Workforce protection, Fire & gas systems, rescue tools & offshore PPE—with full lifecycle servicing and compliance integration.

Procurement & Industrial Supply Chain Support

On-demand sourcing, inventory planning, and certified equipment delivery across PPE, MRO, spares & utility tools.

Operational Risk & Asset Management

Calibration, maintenance, audits, and asset protection strategies to reduce downtime and meet HSE performance targets.

Engineering Oversight & Coordinated Project Delivery

COREN-certified in-house review combined with licensed engineering partners to execute scopes from design to installation—without client-side fragmentation.

INDUSTRIES WE SERVE

Oil & Gas Operators

Marine &
Offshore Logistics

Engineering
& Construction

Manufacturing Plants

Power &
Utility Companies

Telecoms &
ICT Infrastructure

Government & Public
Sector

HSE POLICY

Health, Safety & Environmental Commitment

At SOC Energy Services Ltd, we operate with an uncompromising commitment to health, safety, and environmental (HSE) excellence across all services we deliver or coordinate.

As a prime integrator supporting safety, procurement, operational risk, and engineering coordination across high-risk industries, SOC embeds HSE standards into every aspect of our operations—from in-house execution to external technical partnerships.

- All personnel, subcontractors, and partners operate under clear HSE guidelines.
- PPE, tools, and systems supplied meet global safety standards (ISO, EN, ANSI).
- Engineering support is executed only through certified and HSE-compliant professionals.
- Environmental impact is minimized through responsible sourcing, logistics, and spill preparedness.

Our internal systems prioritize zero-incident outcomes, continuous improvement, and regulatory alignment with DPR/NUPRC, NOSDRA, and client-specific safety KPIs.

CERTIFICATIONS & REGULATORY COMPLIANCE

- **NUPRC Permits**
- **NCDMB Compliance certificate**
- **ISO 9001:2015**
- **Registered CAC Entity**
- **Partner COREN Credentials**

WHY INDUSTRY LEADERS CHOOSE SOC ENERGY

SOC Energy Services Ltd simplifies technical service delivery through its OneSource Delivery Model, offering clients a single point of accountability for certified safety equipment, procurement, and onsite technical support. Industry leaders trust SOC for its:

- ✓ Supply of traceable OEM-certified PPE and FFE
- ✓ Full alignment with the Nigerian Content (NOGICD) Act
- ✓ End-to-end project execution across high-risk sectors
- ✓ COREN-Certified Engineering Coordination
- ✓ One Service Partner. No Execution Gaps.
- ✓ Audit-ready documentation and QHSE compliance
- ✓ Multi-sector agility (oil & gas, marine, power, infrastructure)

At SOC, we don't just supply services, we coordinate outcomes.

SERVICES EXECUTION HIGHLIGHTS

Real Projects. Reliable Outcomes. Trusted by Industry Leaders.
